About Me

I am a creative designer specializing in UX/UI and advanced 3D visualization, with a passion for transforming complex ideas into immersive digital experiences. My work bridges the gap between functional design and artistic storytelling, blending intuitive interfaces with high-detail 3D graphics, sculpting, and rendering.

With a strong background in interactive prototyping, motion graphics, and real-time visualization, I craft environments and product models that not only look striking but also communicate purpose and usability. Whether developing architectural visualizations, mechanical parts optimized for 3D printing, or interactive web-based experiences, I thrive on pushing the boundaries of digital design.

My goal is to create designs that feel alive with interfaces that guide users seamlessly, and 3D visuals that immerse them in detail, depth, and dimension. Every project is an opportunity to merge creativity with technology, delivering solutions that are both

Education

Matric Certificate - Hs Monument (2017)

Higher Certificate in Information Technology and Systems Development – CTU Training Solutions (RDP-2019)

Languages

English - Native

Afrikaans - Native

Skills

Code & Programming

- HTML, CSS, JavaScript
- JSON
- C#
- ThreeJS
- Python
- Java
- jQuery
- PHP

Software

- Unity
- Unreal Engine
- Maya 3D
- Blender
- Adobe Photoshop
- Adobe Illustrator
- MS Office Suite
- GitHub
- Visual Studio & VS Code
- WordPress
- WIX
- Shopify
- Creality 3D

3D Design & Development

- 3D Sculpting
- 3D Environments
- 3D Animation
- UI & Web Design
- AR/VR Development
- Graphic Design

Soft Skills

- Team Management
- Staff Training
- Team Coordination
- AI Integration
- Social Media

Job Experience

Coordinator and Lead 3D-Designer, Online Tutoring

Summit3D | Jan 2026 – Ongoing

Co-owner and lead 3D sculptor at Summit3D, a specialized 3D printing agency. Focused on creating high-detail mechanical parts and complex 3D models optimized for printing, while also contributing to digital infrastructure development.

- Sculpt and construct intricate mechanical components and complex 3D models.
- Optimize 3D assets for precision printing and production workflows.
- Collaborate with clients to translate technical requirements into functional designs.
- Develop and maintain a WordPress-based e-commerce platform for Summit3D.
- Oversee coordination of design projects and ensure quality standards are met.

Website & 3D-Graphics Developer/ Freelancer

BeFound Studios | Jan 2025 – Ongoing

Co-owner and developer at BeFound Studios, delivering software solutions, websites, and immersive 3D graphics. Specialized in building user interfaces for product visualization and architectural projects using Unreal Engine.

- Design and implement interactive user interfaces in Unreal Engine for product and architectural visualization.
- Develop websites and digital solutions for clients as a freelancer through BeFound Studios.
- Create 3D graphics and motion assets to support branding and marketing campaigns.
- Collaborate with clients to deliver tailored digital experiences across multiple platforms.
- Manage studio operations and contribute to strategic growth as co-owner.

Company Co-Owner and Coordinator

Joevian Jewelry | Aug 2024 – Ongoing

Co-founded and scale a bespoke jewelry business, balancing high-level executive strategy with daily marketing and supply chain operations. Drive revenue growth through strategic reselling partnerships, custom product design management, and multi-channel digital marketing.

- Co-steer business growth, financial planning, and long-term brand strategy.
- Manage end-to-end operations, from sourcing raw materials to final product delivery.
- Establish partnership frameworks with reliable resellers to expand market reach.
- Design and execute marketing campaigns to boost brand visibility and sales.
- Oversee digital storefronts and social media channels to engage target audiences.
- Analyze market trends to position custom jewelry lines competitively.
- Facilitate custom jewelry pipelines, acting as the main bridge between clients and production.
- Maintain quality control standards for all custom pieces and resold inventory.
- Deliver exceptional client service to ensure high retention and referral rates.

Lecturer – UI/UX Facilitator

CTU Training-Solutions | Feb 2024 – Nov 2025

Full-time lecturer facilitating UI/UX, Web/Graphic, Online-Network, and 3D development modules. Gained invaluable insight into team communication and coordination while teaching and assessing future developers.

- Deliver lectures and practical sessions on UI/UX, Web Programming, and Graphic Design.
- Assess and mentor students to industry standards.
- Coordinate with fellow facilitators to align teaching methodologies.
- Develop course material and ensure curriculum relevance.
- Modules taught: Online Networking, Information Systems, Python & C# Logical Thinking, Photoshop, Illustrator, HTML, CSS, JavaScript.

Lead 3D Developer

The Converted-Click | Aug 2020 – Aug 2022

Specialized in 3D content design and immersive product experiences during the COVID-19 era. Developed advanced AR/VR product configurators and interactive marketing campaigns.

- Designed and implemented interactive 3D product configurators for AR/VR platforms.
- Created 3D models and rendered content for video and image campaigns.
- Collaborated with marketing teams to deliver immersive brand experiences.
- Enhanced expertise in Unreal Engine, Unity Editor, Blender, ThreeJS, and Vectary.
- Adapted workflows to meet evolving client needs in virtual spaces.

Website & Content Developer

Ignition Marketing | Nov 2019 – July 2020

Focused on web development and digital branding solutions. Built e-commerce platforms and social media campaigns to boost brand awareness and sales.

- Developed and maintained e-commerce websites using WordPress and Visual Studio.
- Designed branded social media campaigns and product imagery with Photoshop.
- Configured office hardware and supported IT infrastructure.
- Implemented HTML, CSS, and JavaScript solutions for troubleshooting and customization.
- Collaborated with clients to align digital strategies with business goals.
